

When I Grow Up...

## Make your own Time Capsule...

A time capsule shows people in the future how we lived. You put special things in the box, then bury it for many years until someone digs it up!

Why not make one at the beginning of the school year and dig it up when you've finished to see how much you've grown?

### Step one:

What will you put inside? You could:

- Write a letter to yourself
- Draw a picture
- Include a photo of your family
- Put in something you found in your house
- A personal item

### Step two:

Find somewhere safe outside and get mummy or daddy to help you bury it- make sure you remember where you left it!

### Step three:

After a year has passed, your mummy or daddy can help you dig it up...

### Step four:

Look at how much you've all changed!

The date today is .....

Put this sheet in your Time Capsule and see how your favorite things change...

# My favorite:

Color is...

Food is...

Game is...

Friend is...

Draw a picture of your best friend

Animal is...

When I Grow Up I want to be a....

The date today is .....

Draw yourself today and see how much you've changed in a year...
